## Overview

A great quote can be the heart of a compelling article. True facts assist to inform a story and decorate the credibility of a press release, news tale or speech. Phrases which are crafted well can leave a lasting impact on the world.

Inspirational facts are important due to the fact they spark off an emotional pulse factor in our hearts and minds when we are in a distressing scenario. The proper quote can help us to see mild at the stop of the tunnel, and give us that greater burst of wish and courage to persevere.

## Audience

- Writers
- Students
- Individuals that incline to arts
- Speakers

A writer has a creative and artistic work, in that it transforms words into phrases, stories and articles that give pleasure to read. But we also know that inspiration does not always flow to all writers and at all times. The multi-quote application is a good inspiration for those times of frustration, loneliness or "writer's block" in which the writer needs extra motivation. Read and inspire yourself whenever necessary.

## The Experience

The app favorites quotes is very simple to use and browse categories. The users were focused to read the quotes and without distractions with images and colors, only with the focus on the text.

## How The App Will Be Used

It is right to hold in thoughts those phrases which have caught our attention, as we create the phrases with the intention to be used to symbolize a product, corporation or man or woman. As a spokesperson you need to make sure that your message is apparent, concise, compelling and it doesn't hurt to be catchy.

Users can save their favorite quotations for later use.

## Main Features

1. The user can choose the quote by category.
2. After deciding a category, the user can save their favorites quotes. The quotes added to the favorites can be accessed at any time.
3. When clicked in the option above the quote "Favorite", it will be show a box dialog with the information: "Are you sure you want to add the quote?". If you click "yes" it will be save in Favorites. Which can be accessed at the bottom of the page on the star icon.
4. Within favorites, the user can delete anytime favorites and add new ones if they want.

## Wireframes

The main idea of this wireframe is to work as a basic visual guide that will show all the components that will be present on the screen.
